

CR35

Cash Register

The CR35 is a stylish and efficient option for any small business. Although compact, it includes many features usually seen only on higher end models, including department and hotkeys, a journal printer, as well as a huge PLU capacity. Like all our registers, it comes with a heavy duty cash draw and thermal printer as standard. It has fantastic performance with or without power with an optional rechargeable battery. The CR35 is a basic and user-friendly choice for a small business in any industry.

Cute and Stylish

- Delicate and cute appearance, black cash drawer with a grey and white or blue and white body

Easy to set up and use

- The keyboard includes 8 department keys as well as 8 hotkeys for easy access to your most used products.
- The shortcut keys make it easier for user to program the cash register whilst using it; simply double click '00', followed by DEP or PLU key, and you can edit your own products without the help of a technician!
- A sample PLU Database can be provided upon request, to help you set up your system quickly

Inbuilt Printer

- High speed alpha-numeric thermal Receipt Printer inbuilt into machine- No ink needed!
- Receipt option can be turned off and on as needed
- Supports logo printing
- Inbuilt printer can be upgraded to a double station printer for receipt and journal printing if required

Extensive Features

- Heavy duty cash drawer included
- Calculator mode allows the register to be used as calculator
- Calculates and prints various types of reports to provide you with sales information
- Inbuilt battery and optional long life rechargeable battery also available
